OUTRAGE TO THE FLAG.

The Illegal Seizure and Detention of the American Steamer Montijo.

The Government of Panama Refusing Reparation for the Insult and Injury Committed by Insurgents Within Its Limits-Opinion of the Attorney General of Panama-Making Light of a High Crime Against the American Flag.

A MYSTERIOUS MURDER

PANAMA, Jan. 22, 1872. On the isthmus affairs are quiet, pending the ap prosching Presidential elections. The case of the ican steamer Montijo, for the unlawful seizure and detention of which by a party of insurgents within the limits of the State of Panama, the gov ent of the United States demanded from that of Colombia indemnification and an apology, is again prominently before the public. The naving been submitted to the authorities of this State for investigation, it was handed over to the attorney General, and he has published his opinion on the question. This gocument was published officially on the 18th inst., and as a State paper is juite a curtosity for the off-hand way in which it isposes of so high a crime as the seizure of a oreign vessel on the high seas by a band of insurents. The PARTICULARS OF THE SEIZURE
of the Montilo, published in the HERALD at the
time of the occurrence, may be summarized as follows:—On the 6th of April last the Montilo, an
American register, sailing under the United States
diag, and withal naving permission from the government of Colombia to enter and navigate rivers in
the Bay of Panama and out of it, within the precincts
of this State, in the prosecution of legal trade sailed
from the port of David on a regular voyage, freignted
with passengers and merchandise. When she had
proceeded some forty miles down the river to its
mouth site anchored to make some repairs required
on her boiler. White at anchor a party of men, who
had taken passage from David for Panama,
took forcible possession of the steamer, and
under the threat of violence compelled the
capitant to turn his steamer round and go back to
the port he had just left. In the mean time a supply of arms and ammunition had been received on
board from a vessel anchored at the mouth of the
river. On the stn of the same month, three days
after the seizure of the steamer, a revolution broke
out in the province of Chirqui, heated by the
same parties who had selzed he Montily interdays before. The vessel was used in the individual
those parties and by the time of the state and the rerevers of the outrage at Panama, the owner of the
steamer protested energetically against it before
the linked States Consul here, and his brother, who
was on board at the time of the seizure, also protested against the act, and after the revolution was
declared refused to freight her on any terms.

After the treaty of peace was signed the President
of this State proposed to settle with Messrs. Schnber, the owners, for the loss they had suscanned.

The question of damages was left to arbitration
and put at some thirty-eight thousand dollars.

The imports of foreign dry goods at this port during the week ending February 1, 1872, were \$3,552,748. The withdrawais were larger than the amount sent to warehouse, the total amount marketed having been \$3,406,596.

MONEY RASY.

The money market during the usual hours for making engagements was active at 6 a 7 per cent on governments and at 7 per cent on stock collaterals, but suddenly relaxed just before the close of banking hours, when, accounts having been generally made up, there was a pressure to lend the money paid out by the Sub Treasury this afternoon for the million of bonds bought yesterday. Large amounts were loaned at the best offer that could be got, transactions occurring at as low as 5 per cent on stocks and at 4 per cent on governments. Prime paper was quoted 7 a 8 per cent discount and is scarce, the street supply having been nearly absorbed since the middle of ary. The banks are discounting freely for their customers and lending on stocks to within 10 a 25 per cent of market price. A number of time loans at 7 per cent running over into the summer bave been made on pledge of the active speculative fea-

tures of the Stock Exchange.

The impression is abroad again, now that Congress has by a large vote sustained the Secretary of the Treasury in the Syndicate negotiation of the \$130,000,000 of five per cents, that the Rothschilds Cooke proposals will be renewed, with a modifica tion of their terms so as to enable the negotiation to come within the terms just endorsed by Con gress. The older five-twenty bonds, particularly the '62's, felt the influence of this theory to-day and were weak and lower, the general list being heavy throughout and at best only steady in a few particulars. The following were the closing prices:--United States currency sixes, 114% a 115; do. sixes, 1881, registered, 114% a 114%; do. do., coupon, 115 a 115%; do. five-twenties, registered, May and November, 110% a 110%; do. do., 1862, coupon, do., 110% a 110%; do. do., 1864, 110% a 110%; do. do., 1865, do. do., 111% a 111%; do. do., 1867, registered, January July, 1111/4 a 1111/4; do. do., 1865, coupon, do., 1101/4 a 11016; do. do., 1867, do. do., 112 a 11216; do. do. 1868, do. do., 112 % a 112%; do. fives of 1881, funded, registered, 108 % a 109; do. do., coupon, 108 % 108%; do., ten-forties, registered, 107 a 107%; do

The full details of the public debt statement, re ceived by mail to-day, show less than \$125,000,000 of the new five per cents outstanding, although Mr. Boutwell claims that he has negotiated and dis posed of \$200,000,000, and so the public have thought for a good while past. Where is the rethe possession of the Syndicate in exchange for their non-interest bearing certificates of deposit.

GOLD STRONG-109% A 109%.
The gold market opened weak on better quota tions from London for both consols and United States bonds, and as a result also of the impression above referred to, concerning the reopening of the negotiations for \$600,000,000 more of the new loan. The sales at this period were frequent and large at 109%, with an occasional transaction at 109%. Later in the day the stock brokers became buyers of gold, and one rumor had it that the Syndicate were buying to close up some of their obligations in connection with the new loan, Mr. Boutwell having probably intimated that it was about time they took up their certificates of deposit with the genuine coin credit on their books. These purchases advanced the price to 109%. The course of the market is

STOCKS DULL AND STRONG.

**There was a little more animation in the stock market and a generally cheerful feeling, resulting from a steady revival of confidence in the future serenity of the situation, now that nothing more is said about the war with Spain or even concerning that quarret with England foreshadowed in the disputed claims before the Geneva Commission. THE NORTHERN PACIFIC RAILROAD LOAN. This topic grows interesting. Our assertion that the European agents of the Northern Pacific were selling the bonds in London for about 90 per cent currency when they were "foisting" them on the American community at par, has caused an unusual of the HERALD. Our venerable big brother of the Times ("Money Writer") gave a Ben Franklin giance over the top of his gold spectacles, and told is with a kindly smile we were wrong—"we hadn't calculated the foreign exchange." Then the Messrs. Jay Cooke & Co. said we had made an "obvious at 102." We published the card of the latter, but modestly waited for an outside champion of our

cause. Here he is:—
TO THE EDITOR OF THE HERALD:—
Having seen a denial in the Times of your figures in the Northern Pacific Railroad matter I give you herewith the correct figures, which prove your position right. As the bonds issued were sterling the nominal rate of exchange his nothing to do with the question. The bonds were issued in £200, £100, &c., &c., which were offered at £35 per centum. /e., per £100. Now, taking a £200 bond (equivalent to \$1,000)—which, at £35. would be £170 with exchange at 9½ and gold at 10 per cent premium—you have \$910 0d, currency, for a £200 or \$1,000 bond, or a trifle over 91 per cent currency. The Times article, which, I notice, is being extensively copied, completely falsifies the facts, and the Herald, as usual, is right, and should let the public know it.

The rock on which our venerable brother of the Times and the Messrs. Jay Cooke & Co. have foundered is "foreign exchange," which even to those who cipher in it every day is Sanscrit. Now, we will suppose a case for familiar illustration:— A man in New York wishes to buy a \$1,000 bond of he Northern Pacific Railroad. The agents in this city ask him \$1,000 greenbacks for it. Meantime he has seen in the English papers that the London agents were receiving subscriptions according to the following advertisement :-

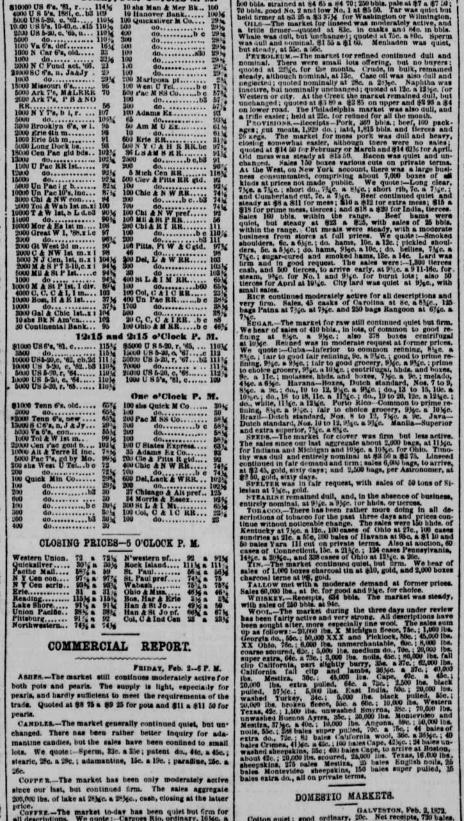

the following advertisement:—
The issue price is 85 per cent, payable as follows:—£5 per cent on application; £10 per cent on allotment; £10 per cent on allotment; £10 per cent on 3d of April; £20 per cent on 3d of July. Ever cent on 3d of July. Total, £85 per cent, thus yielding to subscribers upwards of eight and a half per cent per ansum upon the investment, with the further addition of Afteen per cent on repayment of principal. In other words, the London agents offer a £200 bond (stated by them in the same advertisement to be equivalent to \$1,000) for £170, less a rebate, or drawback, which brings the cash price down to £167 %. Our investor goes down to Wall street and asks what it will cost him to lay £167% in London. The rate of exchange is 109% and the price of gold finds, in short, that he can buy in London for 89% per cent (transmitting the money from this city) a oud for which the agents here demand 100.
